

Conference Objective

• This Fourth Maghreb Conference on Desalination and Water Treatment provides an excellent forum for scientists, professionals and technologists especially from North Africa countries. It will be devoted to fresh water for the Maghreb where the situation is dramatically more serious with rapidly increasing population and much lower rainfall. The following objectives will be discussed:

- Present state of the art of desalination and water treatment,
- Research and applied work in desalination and water treatment,
- Needs for Maghreb countries in research, formation and cooperation.

Conference Topics

- Desalination in remote and arid areas,
- Wastewater treatment and reuse,
- Reverse osmosis, Ultrafiltration, Nanofiltration,
- Electrodialysis,
- Membrane distillation,
- Thermal desalination processes,
- Membrane preparation and characterization,
- Pretreatment (fouling and scaling, removal of specific compounds), membrane processes,
- Post-treatment of desalinated waters (disinfection, calco-carbonic equilibrium, corrosion),
- Bacteriological aspects of water,
- Chemistry and thermodynamic of saline waters,
- Economic aspects of desalination, renewable energy, nuclear energy, energy recovery,
- Desalination and the environment.

CMTDE 2015

is organised with the support of

Plenary lectures

Oral presentations
and poster sessions

Scientific Program

Industrial
exhibitions

Round table

Conference Language

- The official languages of the Conference are English and French, without simultaneous translation.

Scientific Committee

- Pr. Mahmoud Dhahbi – Tunis, Tunisia
- Pr. Ali Belghith – Tunis, Tunisia
- Pr. Mohamed Dachraoui – Tunis, Tunisia
- Pr. Lakdar Kairouani – Tunis, Tunisia
- Pr. Miriam Balaban – L'aquila, Italy
- Pr. Maxime Pontié – Rennes, France
- Pr. Azzedine ElMidaoui – Kenitra, Morocco
- Pr. Brahim Benhamou – Marrakech - Morocco
- Pr. Abdulmonem Elhassadi – Benghazi, Libya
- Pr. Sadok Ben Jabrallah – Bizerte, Tunisia
- Pr. Slimane Gabsi – Sfax, Tunisia
- Pr. Raja Ben Amar – Sfax, Tunisia
- Pr. Salah Bouguecha – Jeddah, Saudi Arabia
- Pr. Mohamed Ben Amor - Nabeul, Tunisia
- Pr. Amor Hafiane – Nabeul, Tunisia
- Pr. Med Kadri Younes – Tunis, Tunisia
- Pr. Nizar Bellakhal – Tunis, Tunisia
- Pr. Béchir Hamrouni – Tunis, Tunisia
- Ing. Fethi Kamel – Gabès, Tunisia

Local Steering Committee

- Béchir Hamrouni
- Lakhdar Kairouani
- Lilia Boulifi
- Chiraz Hannachi
- Fatma Guesmi
- Wided Bouguerra

Registration fee

	Academic & Researcher	Industrial	Accompanying person
Tunisian participant*	400 DT	500 DT	250 DT
Non Tunisian participant	300 €	500 €	180 €

TDA supports a limited number of Tunisian Master and Engineer students for 250 DT in all inclusive.

The registration fee includes 03 nights accommodation in double room, all inclusive, in hotel 4^{*}, proceedings and documents.

For single room, a supplement of 15 Euros/day (30 DT/day) will be invoiced.

For accompanying persons fees cover the accommodation all inclusive.

*Tunisian academics and researchers are invited to become member before registration.

Payment can be made by :

- **Bank cheque** made out to Tunisian Desalination Association TDA,
- **Bank transfer** to be sent to the address below (a copy must be faxed to TDA):
- **Account name : Association Tunisienne de Dessalement.**
- **Bank: BIAT El Manar,**
- **Account N°: 08 110 0100220024118 82**
- **IBAN: TN 59 08110010022002411882**
- **SWIFT: BIAT TNTT**

New Deadline

September 30, 2015	Abstracts submission
October 07, 2015	Acceptance Notification
November 15, 2015	Full papers submission

TUNISIAN DESALINATION ASSOCIATION AND DESALINATION AND WATER TREATMENT RESEARCH UNIT (UR11ES17)

Organize in collaboration with

EUROPEAN DESALINATION SOCIETY

The 5th Maghreb Conference on Desalination and Water Treatment

CMTDE 2015

21-24 December 2015

**Bel Azur Hotel 4^{*}
Hammamet, Tunisia**

Conference Topics

- Desalination in remote and arid areas,
- Wastewater treatment and reuse,
- Reverse osmosis, Ultrafiltration, Nanofiltration,
- Electrodialysis,
- Membrane distillation,
- Thermal desalination processes,
- Membrane preparation and characterization,
- Pretreatment (fouling and scaling, removal of specific compounds), membrane processes,
- Post-treatment of desalinated waters (disinfection, calco-carbonic equilibrium, corrosion),
- Bacteriological aspects of water,
- Chemistry and thermodynamic of saline waters,
- Economic aspects of desalination, renewable energy, nuclear energy, energy recovery,
- Desalination and the environment.

For registration, please fill on line the registration form, at the following link :

<http://www.ATTDE.org/CMTDE2015/inscri.html>

The reception of the participants will take place at the Hotel on Monday 21th December, 2015 starting from 3 pm.
